

Purchasing Conditions for General Work and Services

As at: 01.05.2023

1. Scope, Constituent Parts of the Order

- 1.1 The following purchasing conditions for general works and services shall apply to all work and service orders of INEOS Manufacturing Deutschland GmbH (the Client) and/or its associated Companies within the meaning of § 15 AktG. (Joint Stock Companies Law) together with their subsidiary companies.
- 1.2 Any deviating conditions of the Supplier will only become a constituent part of the contract if the Client acknowledges these expressly in writing.
- 1.3 The following shall become constituent parts of the order and in the event of inconsistencies apply with subsequent ranking after these:
 - 1.3.1 The provisions of the letter conveying the order together with the description of the service (specifications) including any additional preliminary technical remarks plus the associated drawings and if applicable the record of the proceedings.
 - 1.3.2 The "Purchasing conditions for general work and services"
 - 1.3.3 The safety provisions in force in each case for the place of the execution of the order in their latest version.

2. Offers, Placing of orders

- 2.1 Offers, including all necessary preliminary work are – unless agreed otherwise – free of charge to the Client. Any deviations from the text of the enquiry are to be indicated as a separate item. Alternative proposals are to be submitted separately.
- 2.2 It is the responsibility of the Supplier prior to the submission of the offer and the start of the work to provide information on the spot concerning the given conditions. For deliveries and services, net prices excluding turnover tax are to be offered. The additional work and resources not listed separately in the specification, but necessary for the full completion of the order, are, with the exception of deliveries and installation of materials, to be included in the prices.
- 2.3 The placing of the order together with any modification and expansion of this are required to be in written form, delivery through a computer fax or email without a signature is sufficient here.

3. Prices

- 3.1 The agreed prices are fixed prices for the period of the execution of the order and are understood to be plus the statutory turnover tax valid in each case. With the payment all expenditure (e.g. travel expenses), services and rights of the Client are settled.
- 3.2 If the payment is not made at an all-in fixed price, but with agreed hourly and/or daily rates, the Supplier has to prepare a detailed invoice. Using the Supplier's notes which in each case he has agreed prior to this with the Client, he has in particular to give evidence of the content of the services, hours worked daily and the total number of hours. Unless any other agreement has been reached, invoicing will be made monthly.
- 3.3 Additional services over and beyond the order placed are only paid if these are ordered by the Client in writing prior to execution. The unit rates must correspond to the pricing of the main order.
- 3.4 If the Client is called upon to clear up or eliminate defective work caused by a failure in the service of the Supplier, the Client can demand that his expenses (e.g. his own salary costs) be paid.

4. Supplier Services

- 4.1 The Supplier has to provide the agreed services using his own qualified staff with the necessary care and taking into consideration the principle of economic efficiency.
- 4.2 If the Supplier perceives in the provision of the contractual services that further modifications or improvements to the content and/or scope of the services appear necessary or expedient, the Supplier must inform the Client immediately in writing, providing any possible changes in cost and obtain the decision as to whether the order is to continue to be executed in the modified or improved form. The Client is obliged to provide a decision immediately.
- 4.3 The Supplier shall be responsible for the planning of the work. The Client can request from the Supplier status reports corresponding to the progress of the work. The Client is entitled to request at any time information on the status of the work and check the progress of the work.
- 4.4 If the work carried out is deemed unsatisfactory, the Client can intervene to rectify the project. The agreed deadlines and the exclusive responsibility of the Supplier for the proper fulfillment of the order remain unaffected by this, unless an intervention on the part of the Client is the cause of the delay to the deadline or a defect.

5. Changes to the Service / Premature termination

- 5.1 The Client shall be entitled to request modifications to the services agreed with the Supplier. Should the modification to a service affect contractual arrangements, e.g. payment and/or completion date, the Supplier will communicate this immediately to the Client. The contracting parties will thereupon agree immediately in writing the adjustment to the contract resulting from the modification taking into consideration any increase or reduction in expenditure arising.
- 5.2 The Client shall be entitled to terminate the contract at any time with a notice period of 14 days. In this case, fair and reasonable payment is to be made for the service carried out to this date. The Supplier is entitled to make a claim only after all results of the work existing to that point have been handed over. In the event of terminations by the Client for an important reason, the statutory provisions shall apply.

6. Execution documents

- 6.1 It is the responsibility of the Offerer and/or the Supplier to request in good time from the Client the documents necessary for the execution of the orders and/or the preparation of the offer.
- 6.2 In the event of inconsistencies between the description of the service and the execution drawing, it is always the service arising from the execution drawing that is to be offered and executed.
- 6.3 All plans, drawings and other documents handed over to the Offerer and/or the Supplier shall remain the property of the Client and, once the contract has been executed (or if an order is not placed), these are to be returned immediately and without question. The content of such documents is to be treated as a trade secret and is not to be made available or known to third parties, nor is it to be used by the Offerer or Supplier for his own purposes. Photographing, filming and preparation of project drawings is only allowed with permission.
- 6.4 Any further Supplier execution drawings necessary are to be submitted in good time to the Client for approval prior to execution; the Supplier is in no way released from his warranty obligation by the Client's authorisation.

7. Granting of usage rights to work results

- 7.1 For the work results arising from the provision of service by the Supplier (including work results that are the object of ownership rights, copyrights, commercial protected rights or other economic usage rights), from the time of their creation, the Supplier cedes the irrevocable, non-exclusive, transferable usage rights to the Client for the comprehensive usage of these work results for all of the Client's company purposes without time, space and contextual limitations for all types of usage. The granting of rights is covered by the agreed upon remuneration.
- 7.2 The previous granting of rights also includes the authorisation to edit the work results or have these edited, changed, translated, connected with other services and works from the Client and third parties or to be designed in any other way and to use the works/services and edits created in this manner as the original editions of the work results without the Supplier's consent.
- 7.3 If the provision of service by the Supplier includes (a) the creation of databases in accordance with §§ 87a ff. UrhG, the rights to these databases are in the relationship to the contractor solely given to the Client as database creator in terms of § 87a section 2 UrhG, (b) the creation of source code from computer programs and/or edits of such source code, the Supplier is obligated to give the Client this source code.

8. Supplier Representatives

- 8.1 The Supplier has to nominate in agreement with the Client a qualified person as a responsible representative who can demand from the Client or arrange for the necessary collaborative services. In the event that they are unable to perform these duties, a correspondingly suitable and qualified substitute is to be appointed.
- 8.2 The Client can request for the Supplier representative and/or collaborator to be replaced if the latter prove to be unqualified and/or unacceptable to the Client.

9. Sub-contractors

- 9.1 The Supplier may only allow the order to be carried out in whole or in part by a suitable and reliable sub-contractor with the prior written agreement of the Client. The agreement of the Client shall limit neither the obligations of the Supplier nor shall it constitute any rights for the sub-contractor.

9.2 The Supplier has to impose on the subcontractor all obligations without restriction. In particular the insurance protection cover specified in Item 15.1 must also apply to the subcontractor.

9.3 The Supplier shall be obliged to make good all damages and to bear all costs resulting from the infringement of these obligations.

10. Safety at Work, Rules of Conduct, Supplier Damage Compensation Claims

10.1 The Supplier is – even with regard to the subcontractor employed by him – responsible for adhering to all provisions relating to industrial safety, and in particular the conditions referred to in Item 10.1 of the official instructions/additional provisions and any internal safety provisions of the Client. In addition to this, the Supplier is obliged to guarantee compliance with the General Equality of Treatment Act (AGG) by its employees together with any subcontractors employed.

10.2 The Supplier is obligated to guarantee that both they and their sub-contractors comply with the guidelines from the Posted Workers Directive (AEntG) and the Minimum Wage Act (MiLoG). In the event of significant violations, the Client is entitled to immediately terminate the contract. Furthermore, the Supplier must compensate for any damage that arises through a violation of this obligation and must release the client of all claims due to the MiLoG or the AEntG. 10.2. Before beginning work, the Supplier is obligated to receive instructions from the works manager about the required behaviour rules for the premises, Client rooms and offices and must inform their assistants of this.

In addition to and in precedence of any of the existing rights and obligations as set out in the respective Contract, in each event of any breach of the INEOS Life Saving Rules by the employees of the Supplier or subcontractor working for the Supplier the following shall apply:

(a) The individual who breached any of the INEOS Life Saving Rules shall be immediately removed from the Site by the Supplier on request of Client and the breach shall be reported to Client. The individual shall then not be allowed to return to the site or any other Client site for subsequent 12 months and only then if adequate evidence of suitable training to prevent re-occurrence can be provided, and

(b) the Supplier shall pay per infringement of INEOS Life Saving Rules as liquidated damages an amount equal to 2.0% of the site turnover of the previous calendar year, and in case of a new Supplier the Year-to-Day (YTD) site turnover, based on paid invoices. This will be capped to a 4% malus in any 12 months period.

Should there be a 2nd breach of the INEOS Life Saving Rules within 12 months by the employees of the Supplier or subcontractor working for the Supplier then such breach of the INEOS Life Saving Rules shall be considered as a material breach under the respective Contract and, in addition to the measures above, Client reserves the right to reduce the contract scope or even terminate the contract without notice. Upon such termination the Supplier shall be entitled to payment for any work/services completed up to the date of termination, but shall not be entitled to reimbursement for any costs resulting directly or indirectly from such termination. The Supplier shall hand over to Client the results of the work which have been produced up to the time of termination (materials, documentation etc.) and grant unlimited and unrestricted use of such.

10.4 If the Supplier, his subcontractors, one of his employees or anyone else employed suffers any damages of whatever nature and for whatever reason on the Client's site or in the Client's areas and/or the areas of operation, then the Client is only liable if they acted with gross negligence or intention or claims against them arise due to a loss of life, bodily injury or health problems or it deals with product liability claims or they have violated a significant contract obligation, this means a typical and basic obligation for the contract, and damages have occurred that are typically predictable through the contract.
